
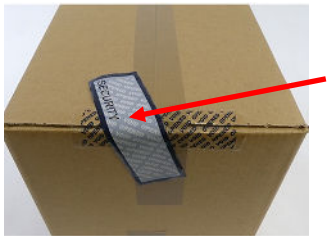
Message revealed on the surface, clearly visible VOID OPENED text left on the surface.

Message revealed on the reverse.



Message is revealed on the face of the tape so, it cannot be replaced.

BOX TAPE

Permanent

Linerless self-adhesive security tape

This permanent tamper evident box tape leaves an easy to see VOID/OPEN security message in the tape itself, so it cannot be reapplied or realigned. The tape leaves a dry, permanent adhesive layer on the surface.

Protecting products and packaging from tampering, unauthorised opening and counterfeiting by delivering an instant, clearly visible, additional layer of security.

The box tape offers a new layer, of advanced tamper evidence to your packaging solutions. The box tape can be applied like traditional packaging tapes, either manually with a tape gun or automatically through carton closing machines. The dry adhesive prevents build-up on the blades and ensures instant activation.

APPLICATIONS:
Sealing boxes and cartons.

TAMPER EVIDENT SELF ADHESIVE TAPE
