SECURE METER LABEL

NEW PRODUCT

TAMPERTECH

HEAT ATTACK

Thermochromic to quickly activate if heat attack or tampering is attempted.

COLD ATTACK

Full security void message reveal if attack with freeze spray and label pulled.

SUB-SURFACE UNIQUE NUMBERING / BARCODES

Numbers printed underneath the film, so they cannot be scratch, removed or replaced.

SUN / RAIN PROTECTION

All print is underneath a protective layer of film, so no fading or removal in harsh conditions.

UV HIDDEN INK

Hidden UV ink, revealed with blue light in the labels, for added unique layered security and authenticity check.

CUSTOMISE

Customise the shape, size, print, colours to match your needs and make a unique solution.
