

COLD CHAIN SUPPLY BOXES, CARTONS & PALLETS

TAMPER EVIDENT • TAPES & LABELS

Applications

Permanent labels and tapes can validate temperature change with irreversible thermos chromic ink changing the colour of the label or tape. The tapes and labels leave a mark on the surface of the surface when removed.

Non residue security labels can also be used so packaging is not permanently marked for re-sale purposes.

Tamper evident tapes and security labels are used for product validation within the distribution system with barcodes, QR references and sequential numbers.

Benefits

Provides an instant, additional level of security seal delivering a clear visual indication of tampering. This provides “positive control” throughout the distribution system.

Simple, secure, “track and trace” features, including individual barcodes and sequential numbers. Individual numbers placed on the cargo along with matching receipt tabs placed on control transit documents ensures proper “chain of custody” – loads can be easily tracked to a company and a location. Protecting from pilfering and counterfeiting.

Flexible

Can be applied to flexible surfaces as well as rigid

Instant Layer of Security

Sticks immediately giving you an additional layer of security

Individual Options

Sequential numbers, barcodes, QR codes, logos, language

Simple, Secure Solution

Machine or manually applied

Approved

Complies with ISO 17712, C-TPAT, OSHA and FDA standards
