

LABELS FOR PILL BOXES

These tamper evident labels can carry data for you and work cold.

INDIVIDUALISE YOURS

The label size and shape can be product-specific to fit in with your needs.

The labels can be coloured or clear, with additional security features from security cuts, special inks including UV and thermochromic through to sequential numbering, QR and barcodes.

PRODUCT DATA	
Core ID	76mm
Film	50µ BOPP
Tensile Strength (MD) ASTM D 882 @ 50%/min	210 MN/m²
Elongation at Break (MD) ASTM D 882 @ 50%/min	85%
Adhesive	Formulated Hot Melt
Adhesive Thickness	30 – 45gsm
Softening Point (Mettler Drop Point)	92°C
SAFT	59°C
Peel (20min, glass)	35N / 25mm
Peel (24 hours, glass)	35N / 25mm
Tack (Glass)	60N / 25mm
Packaging	Rolls packed in 36 rolls per box, dependent on roll length and width
Recommended Application Temperature	+15°C - 25°C
Storage	Dry conditions between 10°C-20°C, kept in the box out of direct sunlight
Note #1 Tests carried out using 50µ PET 40gsm – tests cannot be carried out using tamper evident product as the tape is designed to split into 2 parts	
Note #2 The ingredients of the adhesive meet the compositional requirements of the American Food & Drug Administration regulations 21CFR 175.105	
Note #3 This product is not designed for direct food contact

KEY BENEFITS

LAYERED SECURITY FOR PHARMA TODAY!

PRACTICAL SOLUTIONS

- **Simple to integrate into existing processes** - no cost to change
- **Adds to brand reputation** - fully customisable
- **Supports product traceability** - sequential numbering and QR codes
- **Helps fight fraud and forgery** - cannot be copied
- **Technical security solutions** - covert features
- **Flexibility through individual designs** - in-house artwork team
- **Our tamper evident performance still works cold** - down to -80°C

Minimum Order Quantities:

Labels = 1000
Custom Tapes = 80 Rolls
Stock Tapes = 20 Rolls

Custom Tooling:

Printing Plates - £120 (one off)
Cutting Tools - £200 (one off)

DUMBBELL LABELS

These tamper evident dumbbell labels can carry data for you and work cold. They do not contaminate the neck of the vials, tubes, or bottles as they have no adhesive.

INDIVIDUALISE YOURS

Tamper evident labels are shaped like a dumbbell with wider areas at the ends. The length and the width can be designed to fit your needs.

The two ends of the labels are self-adhesive with a tamper evident void message and the narrow center strip has no adhesive applied and therefore not sticky.

LABELS FOR HOME TESTING KITS

These tamper evident labels can carry data for you and work cold. They are designed to offer a compact security solution to seal a wide range of boxes and cartons to keep the contents safe whilst packaged

INDIVIDUALISE YOURS

Tamper evident labels can be circular, however, the length, width and the shape can be designed to best fit your needs.

The entire labels are self-adhesive with a tamper evident void message, which can be customised to say exactly what you would like.
