SOLUTION

CVIT tamper evident non-residue labels,  
providing an additional layer of security

Cash and valuables in transit companies play a vital role in the business world and the wider community keeping the economy running. However, due to the nature of the CVIT service, crime is a real challenge.

The non-residue label can be applied to the cassette or bag, providing an additional layer of security instantly showing clear visual evidence if it has been tampered with.

The label sticks to the surface of the CVIT box and VOIDS when removed. The label cannot be replaced as the message in the label has been revealed. The adhesive used leaves no residue on the surface when removed.

With a sequential numbers the label is unique providing a new level of security for everyone involved.

The labels can be overprinted in black, white, red, blue and green.

Layered security  
Quick to check  
No residue

## Label Options:

Custom message available
