Label applied

Label removed showing void message on the surface and on the label

P2350HYBRID SERIES

Permanent

Self-adhesive security labels

These P2350HYBRID permanent labels leave an easy to see VOID/OPEN security message in the label itself, while leaving a dry, permanent adhesive and VOID residue on the sealed surface.

Delivering an instant, additional layer of security.

The P2350HYBRID Series offers an advanced tamper evident solution with a high contrast shiny finish giving an excellent VOID.

The P2350HYBRID is available in finished labels with a standard void message and Master Rolls 500lm x 250mm (useable 240mm) for customers to die cut themselves. Custom void messages are also an option for over 500lm.

APPLICATIONS:

sealing boxes and cartons, envelopes, sea containers, polystyrene boxes, retail and mail order packaging, forensics, security bags, genuine product verification warrantee, chain of evidence integrity …
