# TAMPERTECH Teaches:
What is Tamper Evident?

Tamper Evidence's can take many forms, but fundamentally it is anything that highlights or leaves behind evidence of tampering

Our range of Tamper Evident Security solutions come in 3 standard forms that "Void" which reveals a "hidden" message when removed:

1. Bag Tape
2. Box Tape
3. Labels

Within these 3 forms there are many options from Non-Residue or Permanent labels / UV inks / security cuts / thermochromic / water fugitive and more.

The key part of tamper evidence is that what ever happens is irreversible, so that when tampering occurs our layer of security cannot be reappled making it easier to spot.
